THE AURELIAN GROUP, INC.

ADVANCED SOFTWARE / AGENTIC AI / SECURE ENTERPRISE SYSTEMS

Engineering what comes next.

Independent Colorado technology corporation | U.S. & international project enquiries

ENGINEERING CAPABILITIES

- Custom software, Python/FastAPI, APIs, integrations
- Purpose-built agentic AI, RAG, MCP and automation
- PostgreSQL and SQL architecture, data engineering
- Cloud/container platforms, CI/CD and observability
- Secure systems, policy controls, auditability
- Applied R&D and advanced prototypes

DELIVERY MODEL

- Define the business problem and acceptance criteria
- Design a secure architecture and scoped work plan
- Engineer, integrate, and test against requirements
- Validate performance, document, and hand over

ILLUSTRATIVE ENGINEERING WORK

Autonomous Enterprise Operations

Python/FastAPI platform demonstrating controlled agent execution, signed identity, OPA policy, PostgreSQL RLS and append-only audit patterns.

Aurelian Intelligence Workspace

Next.js/FastAPI intelligence workspace exploring retrieval, tool orchestration, MCP, evaluations, PostgreSQL and traceability.

COMMERCIAL & PROCUREMENT PROFILE

Entity

THE AURELIAN GROUP, INC.

Location

Colorado, United States

Primary NAICS

541512 - Computer Systems Design

Related NAICS

541511 / 541519 / 518210 / 541715

Engagements

Defined scope / milestones / deliverables

START A TECHNICAL ENGAGEMENT

Requests for proposals | Solution architecture | Systems modernisation | Technical teaming
